

News Release

CARDIFF BUSINESS JOINS CONSTRUCTION'S ELITE

Cardiff-based Aquaplan Limited has been crowned one of the UK's fastest growing construction Companies in a new League Table published by industry magazine Construction News and in association with trade body the National Federation of Builders (NFB), based on financial trading figures for the five years to 28 February 2007. The Company has been placed 81st in the League Table overall.

Julia Evans, chief executive of the NFB, said: "This is a fantastic achievement by Aquaplan Limited to accomplish both a high rate and consistency of growth. For decades, we've been helping thousands of construction companies large and small tackle the challenges presented by the industry with specialist services and support, from training to advice and from networking to lobbying."

Aquaplan has been installing specialist single-ply roofing Systems for main contractors and property developers throughout Wales and the West of England since 1992. More recently In 2006, managing director Bob Clayton developed the operation of the business to include a combined package of single-ply roofing and cladding Systems for its Clients.

Aquaplan is involved in a range of projects in the commercial and industrial market, including schools, medical centres, hotels, retail parks and leisure centres

The Company has been a member of the NFB since 1997. "We are grateful for the support and advice the Federation has given us over the years", comments Wendy Clayton, Marketing and Administration Director. "We're very proud to feature in this unique list along with major construction organisations. We believe the key to our success has been hard work and dedication, combined with the support of a highly skilled workforce, suppliers and financiers.

The 'Fastest Growing Companies in Construction' is an inaugural league table of construction firms that have demonstrated the highest rate of growth over a five-year period. The full list which can be seen on www.cnplus.co.uk includes some of the industry's biggest names.
