

# NFB Shield - performance bonds, road bonds & sewer bonds

---

The National Federation of Builders has supported the construction industry for over 150 years. Through NFB Shield and our Insurance Partner we are now able to provide added reassurance to your clients to help you win work.

## Performance Bonds

Performance bonds are becoming more commonplace in the UK construction industry. Developers and contractors are being asked to provide these when they undertake new developments.

Performance bonds are a means of insuring a client against the risk of a contractor or company becoming insolvent or failing to fulfil contractual obligations to the client.

If you need a performance bond for your project contact us to see how we can help.

## Road Bonds & Sewer Bonds

The most economical and effective way of providing cover for your sewer and road bonds insurance.

Road Bonds Insurance is required by the highways authorities for any development where roads are being constructed and will be adopted by the council after completion. If the road is not completed to the specification outlined in the planning approval the council has the resources to bring it up to standard.

S38 Agreements cover new roads and S278 Agreements cover work done on existing roads. The amount of security required is determined by the council and is often higher than the developers' own budget for the work.

If you need Road and Sewers Bonds contact us to see how we can help.

## WHY CHOOSE NFB SHIELD

- Reputation
- Relationship
- Repeat Business
- Competitive Rates
- Dedicated Manager
- Free Technical Support
- Fast Quote, Fast Cover
