

# We are Kickstarting Construction

**Don't miss out on free labour for 6 months on 25 hours a week which will be paid for by the government.**

The Kickstart Scheme is a 6 month paid job with a local employer, funded by the government. Through the NFB, our partner Kickstart Wraparound will not only help with providing Kickstarters, but will also provide HR and Training before they join your business.

NFB in partnership with our provider Kickstart Wraparound, are offering a free training course valued at £1500 offering your new kickstart employee an insight into construction.

The course is a level 1 intro into Health and Safety in Construction. This course will be completed in 12 days before the Kickstarter joins your business, they will also complete a green card CSCS certification and additional qualifications like a Banksman Ticket, Abrasive Wheel and heavy machine training.

**For more information contact your NFB Account Manager**
