

BIM in practice

Location

Onsite

Duration

One day

Price

TBA on proposal

No. delegates

Maximum of 20

Please note certificates of attendance or accreditation will be issued on receipt of payment and attendance.

Who should attend?

BIM in practice is aimed at professionals across all segments, disciplines and levels of the construction sector

Overview

BIM is spearheading a revolution in construction to improve project delivery. The government has set challenging targets to reduce capital costs, delivery times and whole life costs of buildings and assets. As a result, clients are changing the way in which they procure projects using BIM, which in turn changes the way in which project teams need to respond and demonstrate their capabilities to meet their clients' requirements. This includes interpreting and responding to employer's information requirements, assessing supply chain capability and developing BIM execution plans. It includes developing and delivering new processes to support information management and setting up and managing the common data environment. It also includes understanding how Government Soft Landings supports collaborative working and the delivery of BIM outcomes.

A practical approach to BIM implementation

BIM in practice is designed to provide delegates with the in-depth knowledge and skills to enable them to begin applying BIM to Level 2 requirements on projects. The BIM in practice course provides an advanced understanding of the BIM Level 2 processes and procedures defined in PAS 1192-2:2013. This includes understanding employer's information requirements and the procurement process, setting up and managing a BIM execution plan, the common data environment, and the principles of collaborative working.

Learning outcomes

You will have an excellent understanding of the fundamental requirements for delivering a successful BIM project.

- Understanding the content and structure of employer's information requirements and how to respond using a pre-contract BIM execution plan.
- Understanding the structure and information management processes set out in PAS 1192-2.
- Understanding how to set up and manage the delivery of the employer's information requirements using a BIM execution plan.
- Understanding the requirements of the information manager role and the common data environment.
- Understanding of the structure and delivery of asset information requirements and COBie.
- Understanding the requirements of Government Soft Landings, how it supports collaborative working and the delivery of better project outcomes.

TERMS & CONDITIONS - All places are allocated on a first come first served basis. Completion and return of a booking form will hold a provisional booking for seven days. Bookings will only be confirmed on receipt of full payment. Payment must be received 14 days prior to event date. On receipt of payment; confirmation of booking together with course information and VAT receipts will be issued by the course administrator. NFB Training reserves the right to alter trainers, timing and venue of the course for reasons beyond their control. NFB Training are constantly updating and improving course content and reserves the right to alter any of the course's content without prior notice.

CANCELLATIONS - Refunds (less an administrative fee of 30%) will be made for cancellations received in writing more than 10 working days prior to the event. No refund is available for cancellations made within the 10 working days prior to the event. Delegates may be substituted in order to avoid cancellation at any time prior to the event. There will be no charge if a substitute person wishes to replace the original delegate. Please inform the course administrator of any change to the original booking. The NFB shall make every effort to avoid the cancellation or rescheduling of an event. However we reserve the right to cancel an event at any time and, should the need arise, the NFB shall endeavour to provide attendees notice in good time and refund or reallocate any payments made in respect of the event. The NFB cannot accept liability for expenses or any other losses relating to costs or time to the delegate or their company
