First line supervisors, managers, team leaders and foremen.

Aim

This course is aimed at giving managers the knowledge and skill to recognize hazards and the actions likely needed to control and manage them

Objectives

- How to manage safely
- Be able to
 - Assess and control risks
 - Investigate accidents and incidents
 - Understand responsibilities
 - Measure performance
 - Identify hazards

Overview

IOSH managing safely is for managers and supervisors in any sector, and any organization. It is designed to get managers up to speed on the practical actions they need to take to handle health and safety on behalf of their teams in a fresh informal way. The training is carried out over four weeks – one day per week.

Delegates will not turn into safety experts but will have a better knowledge and the tools required to tackle health and safety issues they become responsible for.
